This world is making me take more and more
I'll get what I need, yes, I'm a whore
It's true what they say, it's never enough
Allow me to eat on your behalf

Preachers telling me I got to give
But fuck everyone, I want to live
Who knows what will come on judgment day
Right now, step away, let me get paid
Take my money I got it good
Save me honey from Robin Hood
Help's not coming, we're alone
Day is dawning, take me home

The dead don't need much, they never complain
But I, on the other hand, will always remain
See I can get away with anything
I'll KILL, and I'll rob, I'll burn everything
