"Paranormal Mechanism"

Wheels inside of you keep up
Heavy machinery won't stop
Electronic chipset on board
Processing the command.
Problematic mindset, uh huh
Customized bright led, uh huh
I think I lost my hearing, yeah yeah
I'm slowly disappearing, oh no
You are the strangest mechanism
You are most vicious organism
I can't keep up with you my love
I'm wasting myself that's all
Inside of your machinery
Paranormal artillery
