"Open Your Arms"

Visit "[Open Your Arms](#)" on MotoLyrics.com

Just when you thought that you've
Seen all that you could see
Your eyes wide open
Yet you refuse to believe

Your eyes don't deceive you
It's right there in front of you
Reach out and take it
There's no one to stand in your way

But if there's confusion
It's just an illusion
Biding your time
Take nothing for granted today

You and I are lost se la vi
Will it come my way

Open your arms to me if you believe it
I will be here if you lose your way
Open your arms to me if you believe it
Just one last thing for you on your way

Well let's make this interesting
We'll wager everything
Now placing bets against
Everything you could dream

But what's left to lose
If you've lost your integrity
Mind crashing in
As you come back to reality

You and I are lost se la vi
Will it come my way
You and I are lost se la vi
Will it come my way

Open your arms to me if you believe it
I will be here if you lose your way
Open your arms to me if you believe it

Just one last thing for you on your way

One last thing just to make sure
that you've done your best not your worst
You've had your taste of what I have
In store for you embrace these words

One last thing just to make sure
That you've done your best not your worst
You've had your taste of what I have
In store for you embrace these words

Open your arms to me if you believe it
I will be here if you lose your way
Open your arms to me if you believe it
Just one last thing for you on your way

You and I are lost se la vi
Will it come my way
You and I are lost se la vi
Will it come my way
You and I are lost se la vi
Will it come my way

Open your arms
Open your arms
Open your arms
Open your arms

One last thing just to make sure
That you've done your best not your worst

Open your arms

You've had your taste of what I have
In store for you embrace these words

Open your arms
