(feat. J.C. Chasez)

Look in the mirror time to face up  
Ever tried to live without the photographs and money  
Don't have to live behind the make-up  
Cos all I want is what's itching inside of u  
Cos I saw you sitting in the rain with the tears running  
down, running down your face  
It makes me shiver when I see u like this  
But just open u'r eyes and watch it fade away  
Cos I saw you sitting in the rain with the tears running  
down, running down your face  
Can't u see it's a masquerade so get u'rself together  
Plug it in plug it in baby  
Where u been, where u been baby  
Plug it in plug it in baby  
Where u been, where u been baby  
I wouldn't say that it's so serious  
I know u think u'r in a tragic condition  
U know that I'm a little bit more than curious  
When all I want is what's kicking inside of you  
Cos I saw you sitting in the rain with the tears running  
down, running down your face  
It makes me shiver when I see u like this  
But just open u'r eyes and watch it fade away  
Cos I saw you sitting in the rain with the tears running  
down, running down your face  
Can't u see it's a masquerade so get u'rself together  
Plug it In plug it in baby  
Where u been, where u been baby  
Plug it in plug it in baby  
Where u been, where u been baby  
Ever tried to live without the makeup  
Plug it in, plug it in baby...
