I hit you with a lick a thang
Love to feel your body move like this
Rub me down
([Mm:] C'mon work that body)

I hit you with a lick a thang
Love to feel your body move like this
I wanna make u dance
And feel my effect yeah

Drop your guard let's jam
Right here's the spot
(Move your body)
We got this thing right here
Right here's the spot
(I'm gonna get to you)

Drop your guard right here
Right here's the spot
(Touch your body and feel my effect)
We got this thing right here
Right here 's the spot
(It's electrifying, right here
Right here's the spot)

I fancy you
Feel my effect

Right here right here's the spot

I hit you with a lick a thang
Love to feel your body move like this
Touch ya body
And feel the desire

I hit you with a lick a thang
Rub rub ya body
Cos you can call me up and we can get down

Drop your guard let's jam
Right here's the spot

(Move your body)
We got this thing right here
Right here's the spot
(Drop it)
(I'm wanna get to you)
Drop your guard let's jam
Right here's the spot
(Touch ya body
And feel my effect yeah)
We got this thing right here
Right here's the spot
(It's electrifying
Right here, right here's the spot)

Right here's the spot
Right here's the spot

Delirious

I know u fancy me I fancy u
I know u fancy me I fancy u babe, c'mon

I'm wanna make u dance
I wanna move u

It's all about anything, everything
I'm gonna get u

Dance If u want to if u don't' make u'r own way home
(Say chant)
Delirious

All u people, let me hear u make some noise

[Chorus repeat]
