Where's your head at? (at? at? at?...)

Where's your head at?

(Where your head at? Where your head at? at? at? at?
at? at? at?)

Where's your head at?

(Where your head at? Where your head at? at? at? at?)

Drop it

Okay are you ready? I'm ready! Yeaah!!!

Where's your head at?

(Where your head at? Where your head at? at? at? at?
at? at? at?)

Where's your head at?

(Where your head at? Where your head at? at? at? at?
at? at? at?)

Don't let the walls cave in on you

We can't live on, live on without you

Don't let the walls cave in on you

We can't live on, live on without you

Don't let the walls cave in on you

You get what you give that much is true

Don't let the walls cave in on you

You turn the world away from you

Where's your head at?

(Where your head at? Where your head at? at? at? at?
at? at? at?)

Where's your head at?

(Where your head at? Where your head at? at? at? at?
at? at? at?)

Where's it at? Let's go!

Okay are you ready? I'm ready! (go go go!)

You have now found yourself trapped in the
incomprehensible maze...

Where's your head at? (Y'all know how it be)
Where's your head at?
Where's your head at? (You don't make it easy on
yourself)
Where's your head at? (What you give is what you get..
Is what you get... what you get...)

At... at... at... at...

[freestyle vocals]

Where's your head at?
(Where your head at? Where your head at? at? at? at?
at? at? at?)
Where's your head at?
(Where your head at? Okay are you ready? Where your
head at? at? at? at? at? at?)

Don't let the walls cave in on you
We can't live on, live on without you
Don't let the walls cave in on you
We can't live on, live on without you

Watch it!!

Where's your head at? (watch it!) Where's your head
at?
We can't live on, live on without you
We can't live on, live on without YOU!!!
