You've touched my life a thousand times  
We've gone so far a million miles  
And you've ruined my world and nothing is wrong  
We'll be together on and on

You've touched my life a thousand times  
We've gone so far a million miles  
And you've ruined my world and nothing is wrong  
We'll be together on and on

Now it's a faith in your sweet smile  
Never to wait just a little while  
'Cause a mystery will love your soul  
Sound of a soldless I am low

On and on and on and on and on and on

That's the way it's gotta be  
Take my love conceits for free  
Just ask your spell and I'll be there  
Whatever it takes your heart is there  
Forever is not lonely now  
Eternity is much to show  
If you're weak and no one is strong  
We'll be together on and on  
We'll be together on and on  
We'll be together on and on  
We'll be together on and on  
We'll be together on and on
