Hold my hand while you sleep
So when you dream, I'm there with you
Hold my hand while you sleep
So when you dream, I'm there with you

Hold my hand while you sleep
So when you dream, I'm there with you
Hold my hand while you sleep
So when you dream, I'm there with you

Home, feels like home
Home, feels like home

I hurry to make my way home
'Cause you are my truth and my light
Night falls, I search for you
Make my way closer to you, closer to you

Hold my hand while you sleep
So when you dream, I'm there with you
Hold my hand while you sleep
So when you dream, I'm there with you

Home, feels like home
Home, feels like home

Feels like home
Feels like home
Feels like, feels like home

Feels like, feels like
