

## **Basement Jaxx Feat. JC Chasez "Plug It In"**

Visit "[Plug It In](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Look in the mirror time to face up  
Ever tried to live without the photographs and money  
Don't have to live behind the makeup  
'Cause all I want is what's itching inside of you

'Cause I saw you sitting in the rain  
With the tears running down, running down your face  
It makes me shiver when I see you like this  
But just open you're eyes and watch it fade away

'Cause I saw you sitting in the rain  
With the tears running down, running down your face  
Can't you see it's a masquerade so get yourself  
together

Plug it in, plug it in, baby  
Where you been, where you been, baby  
Plug it in, plug it in, baby  
Where you been, where you been, baby

I wouldn't say that it's so serious  
I know you think you're in a tragic condition  
You know that I'm a little bit more than curious  
When all I want is what's kicking inside of you

'Cause I saw you sitting in the rain  
With the tears running down, running down your face  
It makes me shiver when I see you like this  
But just open you're eyes and watch it fade away

'Cause I saw you sitting in the rain  
With the tears running down, running down your face  
Can't you see it's a masquerade so get yourself  
together

Plug it in, plug it in, baby  
Where you been, where you been, baby  
Plug it in, plug it in, baby  
Where you been, where you been, baby

Plug it in  
Plug it in

Ever tried to live without the makeup  
Ever tried to live without the makeup  
Ever tried to live without the makeup  
Ever tried to live

Plug it in, plug it in, baby  
Where you been, where you been, baby  
Plug it in, plug it in, baby  
Where you been, where you been, baby

Plug it in, plug it in, baby  
Where you been, where you been, baby  
Plug it in, plug it in, baby  
Where you been, where you been, baby

Plug it in, plug it in, baby  
Where you been, where you been, baby  
Plug it in, plug it in, baby  
Where you been, where you been, baby

Just plug it in, just plug it in  
Just be yourself, be yourself
