

Bassboosa "Dreaming"

Visit "[Dreaming](#)" on MotoLyrics.com

Must have been dreaming not sleeping
Must have been living not thinking
I let my hair down and let you in
Must have been roses that summer

It's the small details I remember
The way that you laughed
And your hands moved me
You'll keep me warm forever
You gave me space to be

And though you're gone
I know you're dancing

In the next room
It wont be long
Until I'm dancing with you
Cos I never felt this way before

Must have been singing not speaking
Must have been waving not drowning
In the afternoon sunlight
You kept smiling
And I was so happy I found you

You got me spinning around
You got me upside down
You got me
