

Bastard "Truth"

Visit "[Truth](#)" on MotoLyrics.com

For money it's here, for life it's here
For people it's here, for sin it's here

Stand up and shout, I never escape

Civilization's improved, too many fuckin' people
Busy street, heavy traffic, that's just fuckin' chaos

Stand up and shout, I never die

For people it's here, for sin it's here
And for freedom when I will grab soon

Stand up and shout, I never die

Controlled by public order
Dragged about with a collar
To find fuckin' truth still I keep shoutin' my life
Deceived by TV and rumour, losing what I believe
To find fuckin' truth still I keep shouting my life
Truth
Where is the truth?
