Good morning midnight
Hello again.
If I don't close my eyes
Days never end.
Tick tick tock tock
Who's keeping time?
Go away the stop watch
Loosing my mind?
I'm so fixed on, this hide
But I found,
Once you touch the sky
There is no coming down...

Seconds turn to minutes,
And the minutes turn to hours,
And the hours turn to days,
And the world goes round
(And round)

Refren:
The restlessness
You're in my head
I cannot get you out
Heart on my lips
They search your kiss
I just can't live without
The restlessness[x8]

Good morning sunshine,
Who start the match?
And until the twilight,
Brigthen the black
Wide awake,
But sometimes it seems
Like I'm running back
Where it's lost in a dream.
I'm so fixed on, this hide,
But I found
Once you touch the sky
There is no coming down...

Seconds turn to minutes,

And the minutes turn to hours,
And the hours turn to days,
And the world goes round
(And round)

Refren:

The restlessness
You're in my head
I cannot get you out
Heart on my lips
They search your kiss
I just can't live without
The restlessness[x8]

Seconds turn to minutes,
And the minutes turn to hours,
And the hours turn to days,
And the world goes round
(And round)

Refren:

The restlessness
You're in my head
I cannot get you out
Heart on my lips
They search your kiss
I just can't live without
The restlessness[x4]

Seconds turn to minutes,
And the minutes turn to hours,
And the hours turn to days,
And the world goes round
(And round)

Seconds turn to minutes,
And the minutes turn to hours,
And the hours turn to days,
And the world goes round
(And round)
