Can't find my way back home  
It's a cold dark and lonely night  
I'm shaking and I'm waiting 'till the morning light  
I'm lost can't find my way back home  
It's just me and myself sleeping under a tree  
We both are waiting for some company  
I'm lost can't find my way back home  
REF:  
I'm lost, lost, lost all alone, I'm cold cold cold to the  
bones  
Here I am just said and blue you don't know how much  
I'm missing you  
Well I don't know how I got here but I wanna break out  
This claustrofobic feelin makes me want to shout  
I'm lost can't find my way back home  
I wish I had a guide or a friendly ghost  
Where are you baby when your baby needs you the  
most

I'm lost can't find my way back home  
REF  
After being lost for a week and a day  
Some people came to look for me I heard them say  
He was lost he couldn't find his way home  
After a few days search for me they found me hanging  
dangling down from a tree  
He was lost he couldn't find his way home  
I was lost, lost, lost all alone, cold cold cold to the  
bones  
For over a week nothing but misery that ain't no life for  
me  
For a week noting but misery a deadly fear came over  
me  
I knew I couldn't stand it more than a day this was the  
only way  
Can't find my way back home
