Dyna-mite (MUD)

Nobody knew her name but she turned up just the same

There was a knock on the door a hop on the floor
And the boys they turned insane
As they called our her name

REF:

And she walked in looking like dynamite
I said come along boogaloo through the night
By the way she's moving is dynamite
Might she not we're all she's got
She's got the whole town lighting up dynamite
Nobody quite knowing what to do wrong or right
But they all know Dangle is dynamite and they're right
She hadn't been here long but she told us where she came from

There was a flash in the sky a light in her eye
And the dynamite light went wrong
And the music went on and on REF
