Gorilla Beat

Way down in the jungles of Africa there was noting but  
the monkey treat

They slapped and kicked everybody around but they  
never ever heard of the Gorilla Beat

Ref:

Gorilla, Gorilla Beat (2x)

Cause there was nothing else but the monkey treat

But there were three cool apes who had enough of the  
fichte and they started to clack their teeth

They stood straight up and they went wild over that  
crazy Gorilla Beat

Ref

It began when the cool cats clacked their teeth

They chopped down the big old pinetree hit it hard with  
a stick

They slapped the liana and grabbed a guitar and that's  
when they started the gorilla lick

Ref

Them crazy apes began to move their feet (2x)

Gorilla
