Greedy demons, they stood in the night
Long before you were born
In making music, they played with the fire
And spread their seeds in a storm

[Pre-Chorus:]

You will be the next to get infected
Somewhere unknown waits the disease

[Chorus:]

Headbangers
Lust in smoke
Headbangers
The rules we broke
Headbangers
One with the storm
Headbangers
With you we are reborn

God damned silence i'm going insane
I am a metal rebel
My adrenaline, my loss of control
An idea of the devil

[Pre-Chorus]

[Chorus]
