I was lost found channel 12  
Billy Graham and P.T.L  
Oral Roberts, Jerry Falwell  
Boy I thought religion's swell  
Why don't they give us a break  
All they do is take and take  
With a religion that's fake  
With all the money they make

They get the bible and fill it with lies  
When they read between the lines  
With God's words they shove down our throats  
Born again, well what a joke

[Chorus]

The Dead Sea Scrolls said to be the Bible  
The early Christian would have died for  
Now it's in paperback  
And on TV it's the number one program

Holy vision, holy vision, holy vision  
Oh god  
Holy vision, holy vision, holy vision  
Oh god

Can't you see  
They lie to you  
I hope you're not  
So easily fooled  
By what you see  
And hear on the tube  
If you do, you get what you deserve
