Murderers and molesters  
Don't think  
About the person they just killed  
They find  
Fun and pleasure in a way that's so unreal

Killers now are so drab  
They're modern day heros

Books and movies  
That are made  
Glorify the killers in a certain way  
Some people stop and wonder if they could do the  
same

Killers now are so drab  
They're modern day heros  
Killers are now heros  
Modern day heros  
Killers are now heros

So all of you  
Could kill  
If your life was being threatened  
Psycho killers really don't care as long as you're laying  
down there  
Killers now are so drab  
They're modern day heros...
