"Until The End"

Visit "[Until The End](#)" on MotoLyrics.com

I see faces
I see the faces looking down on me,
But they can stare and I don't really care,
Because they'll never understand what we're made of.

Because today is the day when we forget all regrets
And focus on what really matters.
And I hope for you this is more than a trend,
Because you can count on me UNTIL THE END

The fucking kids
The kinds are at it again
To your parents it's "just a phase"
But we're with you so don't be afraid.

[Ref.]

But can I count on you?
Are you with me?
Are you with me UNTIL THE END?
Can I count on you UNTIL THE END?
