Scanned bodies fall to the ground  
A flash by the blade as the sword cuts the speed of the  
sound

And the titans shall scream and cry out  
Valhallan warriors, masters of battle

We know our fate lies in the hands of the gods  
Armed for battle, forces of fire and frost

Inside my dreams I have seen  
My death, my glory and a life full of hatred

Trapped in a cage with my sword and my shield  
Destiny calls so I'm flying away to the gods

Fight, We stand strong full of might  
Victorious path we ride

Bearing the mark of destruction and triumph  
Unchained and victorious we rise  
Bursting the night sky with red glowing metal  
We march on the Road of the Light

Fight, We stand strong full of might  
Victorious path we ride
