Love is the Reason
that I feel the way I do
can't help this feeling,
that i feel when I'm with you.
Just like a storm when I'm alone
my heart is happy too
Nowhere to go, feel so low
cos I want to be with you.

Chorus:-

Life without you would be nothing
just like a song without a tune.
and life without you would be empty
just like the night without a moon.
Love is the season
that blossoms in my heart
and love is the reason that I'm lost
i'm lost when we're apart.
Love is the reason that i feel the way I do

When I'm with you I know what to do
and I don't feel any doubt in my heart.
here in my heart it's something
to do with the way that I Love you.
and it's always been that way from the start
right from the start. oh Yeah.

Chorus
