Today could be a lot of fun  
And precious one I'd feel  
good just to walk with you  
Tonight will be a special  
treat  
You're so sweet  
And I feel good just to talk with  
you  
You know that I been a long time needing you  
You say that you been a long time needing me  
And don't  
you know that there's so much more to come  
I got a heart that just won't stop beating for you  
I got a love I just can't stop feeling for you  
Aren't you glad now  
darling there's me and you  
(tell me tell me you know what I mean) [me and you]  
And I say aren't you glad  
with these days comes somethin' new  
(tell me tell me you know what I mean) [me and you]  
And I say aren't you glad  
now tell me you're so glad [me and you]  
(doo doo doo doo doo doo doo doo doo doo)  
Today is another day  
Another way to get this feeling across to  
you  
Tonight will be another night  
That's outta sight  
cause I know the way to get close to you  
You know that I'll be a long time loving you  
I hope that you'll be a long time loving me  
And don't you know that there's so much more to come  
I got a heart that just won't stop beating for you  
I got a love I just can't stop feeling for you  
Aren't you glad now  
darling there's me and you  
(tell me tell me you know what I mean) [me and you]  
And I say aren't you glad  
with these days comes summer  
(tell me tell me you know what I mean) [me and you]  
And I say aren't you glad  
now tell me you're so glad [me and you]
