Been too long

I miss you darling

I miss you so hard

I miss you darling

I miss you so hard

Miss you so hard

Now

(Miss you darling)

Come back baby

And don't break my heart

How it goes

And now I'm alone lying down

Looking up at the stars

(Stars)

Relivin' the

Relivin' the times we shared when the moon the stars
and the music was all

Been way too long

Been way too long baby

Way too long

Been way too long baby

Way too long
I can't wait too long baby
Way too long
I can't wait too long baby
Way too long
I can't wait too long baby
Way too long
I can't wait too long baby
Way too long
I can't wait too long baby
Way too long
I can't wait too long baby
Baby you know that I
Can't wait forever
Awoke in the night again
We were together
Windows of darkness are
All I can see through
Searching the shadows
Hoping to see you
Baby you know that I
Can't wait forever
Awoke in the night again
We were together
Baby you know that I...
