"I Know There's An Answer"

I know so many people who think they can do it
alone They isolate their heads and stay in their safety
zones Now what can you tell them And what can you say
that won't make them defensive I know there's an
answer I know now but I have to find it by myself They
come on like they're peaceful But inside they're so
uptight They trip through their day And waste all their
thoughts at night Now how can I come on And tell them
the way that they live could be better I know there's an
answer I know now but I have to find it by myself Now
how can I come on And tell them the way that they live
could be better I know there's an answer I know now
but I have to find it by myself
