After it's all been said the music spinning in our head
can't forget the feeling of the magic of that summer in
love ohhhhhh I want to take you there do you want to
turn back pages memories and photographs the world
has changed and yet the game is still the same
Isn't it time we danced the night away how about doing
it just like yesterday everytime I think of you all of those
things we used to do remember those nights we spent
just you and little did we know how the time would fly
Isn't it time Isn't it time woooo wooo woooo
The good times never have to end now's the time to let
the happen again we can have ourselves a blast the
good times they are only in the past
Isn't it time we danced the night away how about doing
it just like yesterday everytime I think of you all of those
things we used to do remember those nights we spent
just you and little did we know how the time would fly
Isn't it time Isn't it time
And as the sun goes down we raise our glass to con to
all the good times we shared isn't it time we get ready
again isn't it time we go steady again
Isn't it time we danced the night away how about doing
it just like yesterday everytime I think of you all of those
things we used to do remember those nights we spent
just you and little did we know how the time would fly
Isn't it time Isn't it time
Isn't it time we danced the night away how about doing
it just like yesterday everytime I think of you all of those
things we used to do remember those nights we spent
just you and little did we know how the time would fly
Isn't it time Isn't it time
