In trouble it's so severe
It's a harmless struggle exhausted year
Hot bubble come bursting out
Somber son with his stitched up mouth
Smoke skeleton police the state
Absolve all of our past mistakes

All over the tri-state area
It's sick money it's crime in stereo
Brown bunny the murder serial
Tan honey the price of marigolds
Smoke skeleton police the state
They absolve all of our past mistakes

The literary return of the rat
A sedentary disturbance in black
Giant Jonah swallows a whale
And spends the next six months in his private hell
