

Bear Quartet "Ambulance"

Visit "[Ambulance](#)" on MotoLyrics.com

Ambulance rotate your lights
All over my block tonight
You are the first vehicle
Driving through this layer of snow

Like it's too good to be true
How often does it happen to you?
Like it's too good to be true
How often does it happen to you?

Hope it's nothing too serious
That there is so much chance
They have got time to feel and talk and joke
In that ambulance

Like it's too good to be true
How often does it happen to you?
Like it's too good to be true
How often does it happen to you?
