Drinking water
From the well
Drinking water
From the well

Lost for words for days
No options but to stay
Can't do much else
I somehow lost track
Now I can't find
My way back

Drinking water
From the well
Drinking water
From the well

A western trauma
Always caught in-between
Plenty and more
Enough for the fare
To get out of here
But I don't know where

Drinking water
From the well
I am ok
But not well

Who owns the well?
Who owns the well?
Who owns the well, well?
Who owns the well, well?
Well, well, well?
