"I Speak Much English"

I too like drink and eat
it's a human need
I can speak much english, see:
No thanks, yes please

What part do you not understand
What's so hard to perceive
This is not the tongue of my homeland
Why are you mocking me

You can see how hard I try
just to get by
Swedish language in my backbone
so I might get yours wrong

What part do you not understand
What's so hard to perceive
This is not the tongue of my homeland
Why are you mocking me

Fuck your first-language fascism,
your borderline racist nationalism
We leave a great deal of cool at home,
so strong is our will to bond
Please, respect that,
please, please
