Join our fearless fight
Anyone who's fed up follow now
Make up for lost time

Far too many years
Wasted while foolishly expecting
Justice and for all

Something that's rightfully ours
Never came our way
Hearts were aching, we stayed awake and
Never collected never picked up
Or overheard a thank you or
Something less worthwhile
Never heard an apology
To compensate our lives

Now is payback time
Get up stand up don't put up with all
Their half truths and their lies

Take as many swines
Capitalistic whores with you
When you decide to fly

Nose first into their heads
When you can't afford to live
Why shouldn't they be dead
