"Signal Box"

Visit "[Signal Box](#)" on MotoLyrics.com

I had me some tracks
I used to be slack
I had me some rails
Got run over by trains

All I ever wanted was a signal box
So I could measure weight
See what comes and goes
All I ever wanted was a signal box
So I could measure weight
See what comes and goes

I used to pull loads
But it goes to show
Just how little you know
When to suck or to blow

All I ever wanted was a signal box
So I could measure weight
See what comes and goes
All I ever wanted was a signal box
So I could measure weight
See what comes and goes
