Man, I've tried but I have failed  
Into the night I crawled  
I was all stirred, there was no other way  
But to find a night open store

We should be drinking by them old houses  
Weeping over babes gone by  
Be cool and cry

I was thinking if you'd like to come  
I know it's late and the party has gone  
They were no friends of mine after all  
But anyway, that's not why I call

Yeah I've been drinking and so should you  
And bring the juice  
Come on out and see  
How it used to be  
(By them old houses)
