All of a sudden  
It's America your loving  
More people, More Taxes  
More Babies in the Oven  
It's a country full of carnivores  
In a world full of Bombing Whores  
The Land of Milk and Honey  
Has become the wife I must divorce  
Missiles Implement they force  
Now we happy with the Pres.  
I bet you from now on everybody  
Will do just what he says  
People on the street they beg  
Dying looking or a job  
The Powers in the People so the  
People should go start a mob  
Aint nobody got to rob  
There's enough for Everyperson  
Cursing, moving toward what we want  
And then we Thirstin'  
For the Freedom if you can't  
Join 'em beat em supercede em  
Move ahead of them  
And then you grab they hand  
And try to lead em  
I don't Need em what I Need  
Is a Country just for me, where they go to plant they  
seed,  
And your Reap it and Recieve  
Fuck the Greed, Fuck the Money,  
Fuck the cash, Listen Dummy  
You'll be gone by the Summy, everyday  
Getting Sunny  
Narcoleptic-Prophylactic's sold to us  
By Dirty Tactics  
Now they selling us our water  
Tainted in those  
Cancer Plastics and I spit this like the Masters  
USA is a Disaster  
Faster, Cuz they Gaining, Bastard, Blast it,  
Now they shooting cuz it's Drastic

I could rhyme about America  
I seen the States  
And took a leak in everyone  
The potential is Great  
Be awake Stop Wilin' out and  
Pulling out the Heaters  
If you want a real Change  
We must Evaporate the Leaders  
Cuz they see through like Aleda's  
Trying to beat us  
But they can't  
With they Faces on they Stamps  
And they Paces all in Trance  
America the Beautiful, America the Bold,  
Americans are Starving, Americans are cold  
Got a Vision of America  
That really doesn't fit  
If you want it to Change  
Then we Have to Commit  
Politician Counterfit, Politician Led Astray  
Politician take a Shit  
On America Today

Yesterday came and went  
It's today that's Imperative  
And why is it the Presidency  
That's always Inherited  
It's Evident that man, will be treated Equally  
(We are now in control of your airwaves and  
Frequencies)  
Fuck the Indecencies  
Chop em down to Reese's Piece  
Bombing People Recently  
Welcome to the Beast Disease  
Welcome to the Melting Pot  
Welcome to the Hell the Hot  
Welcome to the other side  
Welcome will your come inside  
Don't Deny  
Americas not for the Meek  
There's people Dying in the Street  
Every day of the Week  
Put the Pen to the Pad  
And the Pad to your Ear  
It's a Shame it is Sad Getting Bad Over Here  
And they Taking all the Money out the 401k's  
And making marriage legal between two gays  
Living in the last Days  
Fugas' they stay Plotting  
If it was still up to them  
Then Blacks would pick Cotton

They the Parker Brothers  
With Monopolies they own the Banks  
And it's time for us to Grow into Big  
Like Tom Hanks  
You in like Shawshank  
Attack the Left Bank  
It's Time for Left Flank  
And Rise like Dense Stank yo,  
Lyrically I vomit you comet to catatonic, puff on it like  
Hydroponics, No  
Comment we have In Common  
I'm a Hundred and Ten Percent  
I been Sent  
And they Burning the American Flag there's no sense  
And shit is so tense  
I think we need an Evolution  
And notice how I Stay away from the word Revolution  
Cus' it's Televised they watching us  
Binoculars and Following  
And hit us with another Jagged Pill  
They made for Swallowing  
They Wallowing like Pork Swine  
They Greasier than Pork Rinds  
I feed em even More Rhymes  
They speed to Heed the Po Nine  
Yall need this in the Oh Nine  
Let's Represent Democracy  
George the Burning Bush that spoke to Moses with  
Hypocracy
