The People always wonder what the Beast all about
The Beast all About, the Beast all About
It's time to let em Know what the Fuck I'm About
The Fuck I'm about, the Fuck I'm about
If you spittin in this Game you seen the Beast all About
The Beast all About, the Beast all About
Yall really wanna Know what the Fuck I'm About?
The Fuck I'm About? the Fuck I'm About?
Applause for the Jaws
Of Thermal Dynamic Laws
It is Odd, The stars are Dissolving
As We evolving the Planet is ours
Improbable tackling Odds, it's Oz
Land of Milk and Buns
Impossible Scourge of the Gods
There's Squads trying to Kill our Sons
So Hold on to your Britches
Study Photons & Logistics
Or Pick Protons & Linguistics
Strap your boots on
The Resistance
Better have all your survival gear
The Gasmask the Rucksack, a sleeping bag
A Pup Tent, Some fishing line
A dub sack
The Human Primates
Adapt and acclimate to climates
Sperm into the Egg is the Equation to Design Mates
So we Lust the flesh, Observe it in Disgust
Combust and reach the Thresh
Get it off my chest
(Who the Best?)
Watch I slay the Sesh
Sak pase to n'ap boule ra
Up the stairs the Escaleras
Catapult over the Moat, the castle over alligators
Slash the neck and Kill the Sentries
Quiet as I make my Entry
Mp3's Are Complimentary
It' the living Gods that sent Me!

Leave the Rhymes behind and Darn it
Temple Orthodox Incarnate
Reversing they Symbolisms
Rep with double /R's on Garments
Paper Trail of Trailing Paper
Shepherding and Help the Lepers
I rather be Rhyming than at Olive Garden Crushing
pepper
Better sounding than Whoever
Severing, it's Never ending
Flying with Atreyu on A hairy dog
Your all Pretending
Hem the Line a Skirt a mending
Verbally with Herbally
I'm Flooding yall with Knowledge
Better Learn to swim no Gurgling!
(We struggle in this puzzle of the mind)
As we search for Pieces
I pray that the stars will align and the War Decreases
But it never Ceases
It's on the rise as Murder Death increases
A blonde Nero Ceasar
Worshipped in this age of Jesus
Join me Follow
Lace up your Timeberlands and Tie your Wallos
Now Everybody Bust your AK like there's no Tomorrow
Bratatatatatatata Left Face!
Forward March To the thirsty and Parched
Your in the Right Place

You softer than Fine Lace
I'm hard as a Sharp Rock
They funded an Arms Race
And Mocking the Whole Flock

The Clock is a slow Tock
It Tick like a Sick Deer
Hip Hop and it don't Stop
Till I conquer the whole Sphere
My Vision is So clear
The Message is So Strong

Never Settle Hear my Battle Cry
We shatter Rock
And Brave it through the Wickedness

And there's already Been Ten Thousand Sold
It's Been Foretold that many give they Souls

And I Flow this Vicious
The Superstitions slide away the Viscous

Like a Roman-Greco launch a Discus
