Yo them 13 Original Colonies  
Practiced Sodomy  
Rosemary Kennedy tragedy Brain Lobotomy  
Mission Number 13  
Was Little Boy atomic bomb  
Dropped it by the 33rd Parallel  
Voice through Intercom  
(This Robert Oppenheimer come see me  
At Alamogordo, Drop the Test Weapon  
With it's Trajectory set to Auto)  
Slime and Slither reptiles  
Anti Satellite Projectiles  
Kinetically Bombard you  
As you Open up my Zip Files  
I'm the Center Mass  
The Universe Infinite I'm the Middle Them  
Cramming for your Mind  
Like a Graduate sniffing Ritalin  
They changed the Fauna  
Steam from the Cooling Towers in Susquehanna  
High Level Radioactive Waste  
I do this Cause I Wanna  
Ice Crusted Moons  
Were depicted by Galileo  
Bacteria from Earth  
Left to Reproduce but they Failed  
Populate Europa  
Beg for Forgiveness aint no Mia Culpas  
They even Hide the Stars from us  
With Sections Out of Focus  
Why are we alone if the Universe Exogenisizes?  
Wilkinson Microwave Anistropy Probe Exercises  
There will come a Time  
When a Vessel come down From Orbit  
They Create the Drama  
And like a Sponge all the Numb Absorb it  
Let's Resolve this as a Matter of Fact  
Spit a ton of Thermite  
Kill you Slow From the Inside out  
Like a Mound of Termites  
They Prefab the Stories

Double allegory all the Literal  
Approximately 4% of your Body Mass Minerals  
We came from Star Dust and Assemblages  
Of Vast Molecular Gas  
Don't Live in the Past  
Compare & contrast  
We have to Surpass  
The class of the Last  
The Sapiens that Came before us  
Modern day Erectus  
Cold & Unexplored Ice Sheets  
For Siberian Bone Collectors  
Death has Many Faces, nobody changing  
The World is Stuck in Stasis  
Bout to Hit the Ball out the Park  
While y'all trying to Steal the Bases  
Generations have Come and Gone  
We don't Live Long  
So make the Best and Work what ya Got  
This whole Shit Wrong  
My Hit Songs  
They Teaching the People as well as Entertaining  
Googling the Lines that I spit  
What I Kick aint Fit for Lamens  
Space Time Curvature Flux  
They Momentum losing Torque  
And Soon the Worms will Come to the Surface  
Like Soda Thrown on Pork
