You'll get your butt kicked  
Re-enter the atmosphere like they Sputnik  
Iridescent Exoskeletons on Board a Live ship  
A Hive Mentality Honey Combs full of worker Drones  
Shortcuts through subspace Corridors through  
Forbidden Zones  
My Skin and Bones tested and altered they work  
Genetically  
Whole rows of Hybrids and Fetuses sealed  
Hermetically  
Telepathically the Taller ones are Calling all the Shots  
The smaller ones in Bio-Suit Surgeries giving all they  
Got  
The Vessel stops and Vertically plunges the Flying  
Humanoids  
The Cartographic Masters that travel the Interstellar  
Voids are not our  
Boys  
150 Trillion Kilometers they Blood is Like Mercury  
Rising inside thermometers  
On Top of us they Hovering Hiding Devices Cloaking  
High Pitched Sumerian Languages being Spoken
