Serial lovers
Vain liars
Loyal brothers
Global war
Serial lovers
Vain liars
Loyal brothers
End of love

Wiping out the integrity
Losing out the priority
'Bout the Grace outcasts
Outdated by the clash
Oil and Sunni, prosperity
Oil and Sunni, tragedy
Religious irony
Prime time on TV
Jackals jacked up
By some others backed up
Taking advantage of somebody else
Is smashed up
So stand up to reality
Stand up for morality
To the rays of love
And the disgrace of...

So stand up to reality
Stand up for morality
To the rays of love
And the disgrace of...

Out of control
Out of control
We are getting
Out of control

Love is a crime
Acid is the lime
Criminals, liars
Victims of savior
Money profit kills
Everybody got his own thrills

So hopeless I felt
And loveless I left
For absolutely nothing
It's another one your fucking
For you I wrote this beautiful song
About how love and hope have gone
And I will kill your fame your loveless king like a world
With no spring
Believe it
Like a world with no spring
I mean it

Out of control
Out of control
We are getting
Out of control

The pain is gone
The sun outshone
My youth is gone
The lights are on
The time is gone
You've been gone too long
Come
Come on
You've been gone too long
The wine is gone
So sad is this song
I'm gone wrong
The family go on
I'm sitting here alone
