Yo Back the Fuck Up  
Out of my Way  
Before I Crush You  
I Might be Nice to your Face  
But don't trust You  
The Earth is the Deadliest Planet  
To live and Troop On  
These Sheeple Oblivious Women  
That clipping Coupons  
And their Beer Drinking, Meat Consuming, Overtiming  
Men  
Yo the children that they Bearing  
I'm doing this all for Them  
This Real man this aint Pretend  
I'm causing a Massive Shock  
I conquer Block by Block  
While possessed by the Soul of Pac  
Possessed by the Soul of Big  
Possessed by the Soul of Pun  
I never Run From  
None of them  
Paid for the Things I've Done  
I Even cocked back  
And Let a Few Go in the Name of Justice  
Came to Conquer the Scene  
Like a rapping Caesar Augustus  
Heres the Battle Plan  
Resist and assemble a Massive Caravan  
They Brain wash our Children  
And train them to Fight the Taliban  
So Shallow Man  
The woman you're lovings about the Money  
If you got None  
Guarantee honey be acting Funny  
Because she Programmed  
Early through Disney and Prince Charming  
While the Second Amendment Dissolving they  
Disarming  
All the Idiots Believing the Hype that are Watching  
News  
I Refuse to Infuse with Diffusal of Fascist Views  
This is the Worst time Ever in History to Be Living

It's a Cold World in General People is Unforgiving  
It's a hell of a Place  
Were a Race of the Mostest Hostile  
My Disciples are Gradually  
Changing into Apostles  
Left a Legacy Behind  
All the Music and Things I've written  
Of course I seek out the Occult  
Because occult only Means it's Hidden  
Pure of Heart aint no Malice or Hate  
Just simple Logic  
Give a Hundred Percent of Myself in Musical Projects  
Rhyming Handstand  
(Nigga you Nice)  
That's why I thank Fans  
Bases is Loaded with Soldiers it's Time to Grand Slam  
And Bring em Home  
I Hope this penetrates and Sinks into your Dome  
Don't feel ostracized  
Yo My brother believe you're not Alone  
You Never Were  
The way that you're feelings the same & I Concur  
Developing tastes for truths of the World  
Became a Connoisseur  
And I Prefer to be Treated equally Treated Civil  
Fuck the Biases and Spewers of Ignorant Racist Drivel  
We've inherited a Merited Mess  
More or less Repetitive  
Competitive, No Sedative  
Opinions Argumentative  
And the Clock Ticking  
Greedy politicians leave us Slim Pickings  
This the type of Knowledge always have  
And Always Been Kicking
