#### LYRICS:

He Shared the Same Bed  
Exchanging secretions in sheets with Sheba  
Bathing in the Bubbling Waters of AcquaViva  
Sun, Glinting off the Gold on his Chest  
Inside the House of Prayer  
Two Massive Pillars of Brass  
As you Standing in a Square  
Display the Might  
Symbolic was the Veil inside the Inner House  
700 Women in a Line  
He Splacked and did Espouse  
Bring down the Blouse  
And Under the Rubble the Treasure isn't there  
The Symbolism so Deep  
The Metaphors so Multi-Layered  
Precise and Placed  
The Covenant concealed inside the Hidden Ark  
We should all be a little Bit like Solomon  
And Leave a Mark  
With folding Floors  
An Amulet Refract the Light to Open Doors  
Archeological Evidence was Sabotaged  
By Plundering Moors  
Images were graven they Slaven and all for Judah  
Polytheistic Images of God no Halleluja's  
Had they Stables underground  
That Were Housing a 1000 Oxes  
Women Wearing Suits from the Flesh of a Desert foxes  
All the Artifacts are resting in the Hands of all these  
Evil Creeps  
The ones who Know the Secrets  
Are Helping to Keep the Weak Asleep  
So now you know (It was Buried under Solomon's  
Temple)  
And there your Go (It was Buried under Solomon's  
Temple)  
And Seen Never More
