"And Me"

Visit "[And Me](#)" on MotoLyrics.com

Once again I'm all wrapped up in me
My best friend's my own worst enemy
Electricity and gravity

Oh my God now take a look at me
My life line's run by AT and T
They got their wires all up in me
Is push and pull the way it's got to be

Once again I'm all wrapped up in me
My best friend's my own worst enemy
Electricity and gravity

Once again I'm all wrapped up in me
Once again I'm all wrapped up in me
Once again I'm all wrapped up in me
Once again I'm all wrapped up in me

And me, and me, and me
And me, and me, and me
And me, and me, and me

You know I wish that there was some way
That I could be outside playing basket ball
In the rain and not get wet, wouldn't that be great
