It's hot here, gotta say it's so
I got you right where I want
Got an honest face so you turn your back
When in doubt, run up your attack

At one time you were slick and your grill was cold
And now funny how the shit gets old
You can run, you can run but it will catch up
Like now see me, I'll show you up

Now you wanna get back when you had your shine
But you run, you can run but it will catch up
Like now see me I'll show you up

Now you wanna get back when you had your shine
But you run the same thing every time when you rhyme
Can't stop, won't stop, no compromise
It's a house of cards built out of lies

Coming down like a bird floating on the mist
Turn on the track, back track and twist
You work hard to climb the list
Twenty years of schooling and they put you on the day
shift

I know the danger of a man
(That's danger)
Who's been to hell and back again
(Danger)

Can't tell tomorrow from where he's been
(That's danger)
Don't play no game that I can't win
(Danger)

You're caught now by the skin you're in
In a bind, now your thoughts go to all your sins
Hits much harder back, better count on that
I tell you what we know always holds us back

Now you mutter and you stutter and your putter don't
stop

I got in your heart and I shook you up
In a bind now you're caught by the fear setting in
Choked on the thought that you don't it again

Keep the competition in check
You draft your plans at your drafting desk
You try to play to win but now you lost
Like clams with no tartar sauce

Scheming in the attic, thought you had it
So dramatic, I got the stats, mathematics
Automatic, systematic
She's super bad now, whatcha, watcha want now?

I know the danger of a man
(That's danger)
Who's been to hell and back again
(Danger)

Can't tell tomorrow from where he's been
(That's danger)
Don't play no game that I can't win
(Danger)

Don't play no game that I can't win
(Danger)
Don't play no game that I can't win
(That's danger)

Don't play no game that I can't win
(Danger, danger)
Don't play no game that I can't win
(That's danger)

I know the danger of a man
(That's danger)
Who's been to hell and back again
(Danger)

Can't tell tomorrow from where he's been
(That's danger)
Don't play no game that I can't win
(Danger)
