Find

The missing time

That left behind you lonely long before

Fight

Against the night

Try to find the sun and knock the door

What to say

Nothing let me justify

To anybody else

Should I stay or should I go?

Another time, another stories

Begin in your crystal heart

Another time, another stories

Hidden in the mystey eyes

Another time, another stories

Begin in your crystal heart

Another time, another stories...

Another time, another stories

Begin in your crystal heart

Another time, another stories

Hidden in the mystey eyes

Another time, another stories

Another time, another stories
