Rule number one is:

Know what you know, and know what you don't know.
And know that I gotta know everything you know as
soon as you know it.

You know what I mean - You've just recreated the worst
possible nightmare this side of malignant cancer,
For the twentieth goddamn time; and you're standing
there and you suddenly realize:

'- Hey, I'm still here. I'm still breathing. I'm still alive.'
Us lemons, we fuck shit up all the time because we
constantly need to remind ourselves to feel something.
