How do you cry?
Angel gone
Cheat and lie, Cheat and lie
Angel gone
When you have no one tomorrow
There'll be no kind hearts to borrow
Your galley slaves stop rowing
You don't know where you're going
But you go there all the time

You were an angel
Turned into a stranger
Heart-shaped wings and halo
You love to spin your fables
To the music we were making
Then the harp strings started breaking
They stop cold in wintertime

It must be trying
Angel gone
To wear a halo all the time
Angel gone
When it gets a little crooked
You find another Satan's looking
Still your heaven ends in ruins
You don't know what you're doing
But you do it all the time
You do it all the time
You do it all the time

Angel gone, angel gone

I see you alone and I worry
The past starts getting blurry
You got no one to talk to
And I miss your shouldn't ought to's
And I miss your tender sighs

Should we try
Angel gone
Crashing heaven one more time

Angel gone
Crab Gabriel's horns start calling
All the angels who have fallen
Playing Russian roulette with Satan
We'll ram those pearly gates in
St. Peter he won't mind
St. Peter he won't mind

Angel gone, angel gone
Angel gone, angel gone
Angel gone, angel gone
Angel gone, angel gone
