Eyes are burning  
Motherfucking mouth is drier  
Goddamn wheels are turning  
Medication kicking in now I know that I'll live on

Head spinning round and round  
Get down, face down  
Watch my hands shake when I'm speaking  
Everyone knows I'm drinking again  
Wheels on the wagon coming loose  
Looking at the bright side  
It aint' nothing new

Retard, well hung jury  
I speak the truth

Goddamn, wheels coming off again  
Driving off a bridge screaming and numb

Reaching my peak in time  
Pour on the holocaust  
Come on fools

I swear, I failed, I swear  
Incoming  
I swear, lord I failed  
Wheels coming off one more time
