I feel so un-amused
This time there's no excuse
Wish I could get up and walk
So tired of all this double talk

Empty - I've been drained from you
Empty - There's nothing I could do
Empty - Falling far behind
Empty - Wash you from my mind

Coldness has found it's home
In my skin it lives alone
Blindness has helped me to believe
And with your touch it's easy to deceive

Empty - I've been drained from you
Empty - There's nothing I could do
Empty - Falling far behind
Empty - Wash you from my mind

You are where you should be now
Sleeping the longest sleep
You are where you should be now
Sleeping 6 feet deep

Empty - I've been drained from you
Empty - Nothing I could do
Empty - Falling far behind
Empty - Wash you from my mind

Empty
Empty
