God I'm tired of this
Will you see me through
I will wait for you
Forever I will wait for you
I know certainly
Deep inside of me
I am feeling you
I know and believe

Your arms, not to short to save
Your arms, not to short to save

Can you heal all of me
Take this pain away
Set the nations free
Wipe their tears away

Stay here still my child
Let us talk a while
Speak of things unseen
In you and then in me
Unknown entities
Open doors leave me
Nearly torn in two I'm left to face my fears

I wait upon the Lord
I know I'm not alone

Can you be all I need
Leave me not the same
Let my blind eyes see
Leave me never again... never again.
