I am overwhelmed
But I know that you won't let me down
I am overcome
Now I'm waiting for your waking up

Can we know you
Can we stay afloat
High above the world we know
Can we hold you
Never letting go
God I need to know
Let me know

Are you with me now
Or am I just to walk tonight around
Will you care enough
Will you lead me up
To know you... To know you

Don't waste your time today
Told fast don't look the other way
Don't waste your time today
Cause this is overdrive
And we are running out of time
