[Chorus x1]

So pure and natural fresh and clean baby earth is
crying mother earth don't be so mean let the nectar
flow from your heart baby earth is crying don't let her
starve no, no, no, no

[Verse 1]

In the beginning there was light let the rivers flow and
the mountain grow let the sun shine through don't
spoil the view let the trees stand tall and the rain will
fall

[Chorus x1]

So pure and natural fresh and clean baby earth is
crying mother earth don't be so mean let the nectar
flow from your heart baby earth is crying don't let her
starve

[Verse 2]

These spiraling pins will stick her skin for her precious
blood O what a sin her heart is weak it barely beats we
gotta make a change make a difference cause will
never win

[Chorus x2]

So pure and natural fresh and clean baby earth is
crying mother earth don't be so mean let the nectar
flow from your heart baby earth is crying don't let her
starve no, no, no, no
