"Ciao"

I've been so happy since I walked away
I never thought that I could feel as great as I do today
'Cause you were nothing but a big mistake
And life is wonderful, now that I'm rid of you

Oh I must have been crazy to have stayed with you
I can't believe I thought I was in love with you
But now the scales have fallen I can really see
And I say go to hell, 'cause that's where you took me

Well, I've felt better since I slammed that door
You always cramped my style, I never noticed before
It's been a non-stop party since I flew the coop
I can't believe I fell for such a loser like you

And is it any wonder that I felt so blue
When I was always having to put up with you

Oh, here we go again, just lay the blame on me
Don't say another word, 'cause sweetheart, you're
history

I know that you miss me really, bet you wish that you
still had me
You'll never find someone like me but I've got no
regrets at all

Because I've met this girl and she's so good to me
She's really beautiful, fantastic company
And, when I'm with her I realise what love can be
Because she's fifty times the person you'll ever be

Good luck, mister, do you think I care?
Since you've been gone the offers have been
everywhere
I've got a million guys just lining up for me
I've turned a corner, boy, my life is ecstasy

Well, I've been in heaven since I walked away
I never thought that I could feel as great as I do today
'Cause you were nothing but a waste of space

And life is wonderful now that I'm over you
Over you
Over you
